Erin Learns to Walk Better

Five Lessons in Functional Integration

2009

Erin Learns to Walk Better

ERIN, a young child with cerebral palsy, Learns to Walk Better as Moshe Feldenkrais constructs for her a series of thematically interconnected learning situations.

This particular series of lessons will be of special interest to Feldenkrais practitioners, physical and occupational therapists, and for anyone involved in human locomotion, and in its rehabilitation.

Production of this Educational Series issued by special permission from the estate of Moshe Feldenkrais in cooperation with the International/Feldenkrais/Federation, Paris, France.
