Move Like the Animals & Monkey Moves

1993

Walk like a bear! Roll like a baboon! Crawl like an alligator! and more in these award winning musical movement programs for children. Created by an educator, this series is based on the developmental movement awareness lessons of Moshe Feldenkrais. Children develop balance, coordination and motor sequencing while moving to original songs and music. Fun!

Coipyright 1993 Stephen Rosenholtz Banana Boat Music (ASCAP)
Produced by Rosewood Publications Inc.
